| Year Five, $1^{\text {st }}$ Semester |  | Year Five, $2^{\text {nd }}$ Semester |  |
| CHEM 422 | 3 | Chemistry Elective (2) | 3 |
| CHEM 422L | 2 | General Elective or Minor Course (4) | 3 |
| CHEM 402 (Capstone) | 2 | General Elective or Minor Course (5) | 3 |
| Chemistry Elective (1) | 3 | General Elective | 3 |
| General Elective or Minor Course (3) | 3 |  |  |
| TOTAL | 13 | TOTAL | 12 |

A grade of C- or better in all chemistry courses below 300-level is required and all courses that serve as a prerequisite for major-required courses. This includes (but is not limited to) the following courses: PHYS 111/L and PHYS 112/L; MATH 155 (or MATH 153 and MATH 154) and MATH 156. In addition, a 2.0 grade point average must be maintained in all Chemistry 300-level and above courses.

CHEM 191 is highly encouraged by the WVU Chemistry faculty for students to complete.

Students completing degrees from the WVU Eberly College of Arts and Sciences are encouraged to work with their advisors to integrate completion of an academic minor or minors into their programs of study. WVU offers over 100 minors that complement major fields of study, build on students' unique interests, expand perspectives, and broaden skills. See http://catalog.wvu.edu/undergraduate/minors/\#minorsofferedtext for a list of available minors. Blue Ridge Community and Technical College students may begin completion of certain minors at Blue Ridge CTC by utilizing elective hours to take courses equivalent to the minor's introductory requirements at WVU.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed to the WVU Office of Admissions.
